Meyersville, N.J.

Dear Dave:

Just a memo to confirm our phone conversation of June 16 & 17th on full-filling our obligation in closing out the land fill area.

As my understanding, and I have passed this information on to Gene Carracino we will fill the back area to its original level or somewhat higher. We will complete the moat at the pond to leave an Island. The moat will be 12'-15' wide. Dirt removed from the moat will be left in piles around the circumference. When the dirt is handleable you will use it for cover where deemed necessary.

Weather permitting Gene should finish no later than June 26th.

Yours very truly,
L.V. Rothlisberger
